Q: What is overtraining? Are there any easy-to-recognize signs or symptoms of overtraining?

ACE Fitness Q & A

A: Overtraining is a term that is used to express a situation when an imbalance occurs between training and recovery. The symptoms of overtraining can vary from one individual to another.

Overtraining, however, frequently involves one or more of the following common signs or symptoms:

- Impaired physical performance
- Reduced enthusiasm and desire for training
- Increased resting heart rate (i.e., your heart rate taken first thing in the morning before getting out of bed)
- Increased resting blood pres-

- sure
- Chronic muscle or joint soreness
 - Increased incidence of musculoskeletal injuries
 - Increased incidence of colds and infections
 - Impaired recovery from exercise (e.g., heart rate remains elevated well after the completion of a bout of exercise)
 - Increased perceived exertion during your normal workouts
 - Reduced appetite
 - Dramatic weight loss
 - Disturbed sleep patterns
 - Increased depression, irritability, or anxiety

The Walk to D'Feet ALS® is The ALS Association's national signature event. Each year, over 65,000 people including ALS patients, families, friends and corporate leaders join together to raise funds in support of The Association's cutting-edge research and community-based patient services programs. Now in its eighth year, approximately 146 Walks will be held around the country in 2007.

Every 90 minutes a person in this country is diagnosed with ALS and every 90 minutes another person will lose his or her life from the disease.

Door to Door Storage presents...
Survivor Stride II
Sept. 29-30, 2007

*Sing like there's no tomorrow ...
Stride like you've never felt sorrow.*

If you're reading this, you've probably survived one of life's many challenges, or you know someone who has survived or is currently trying to survive a challenge. Whether it was a life-threatening disease such as heart disease, cancer, depression, alcohol/drug addiction, a brain aneurysm, or a life-changing experience such as fighting for our country, abuse, a divorce, the death of a loved one...LIFE BECAME ALL ABOUT SURVIVAL.

Survivor Stride II was created for people to not only celebrate their survival, to celebrate others survival or to celebrate others currently trying to survive, but to celebrate a new beginning, which we all need at some point in our lives. On September 29-30, from dawn to dusk, Survivor Stride II, a national running, walking event, will take place in every city and state and thousands will celebrate their survival. We know that when you didn't think you were going to make it, putting one foot in front of the other took more strength and courage than you thought you had in you...but you did it! So we're all going to celebrate SURVIVAL together. To register for Survivor Stride II, go to www.active.com and use key words Survivor Stride.

But we're not just about "SURVIVING." We're about living and learning with compassion, passion and purpose. It's what makes us tick. Our vision was to give all SURVIVORS a way to come together to empower themselves. Our vision has become a reality. So come on...empower yourself.

We're asking you to support Survivor Stride II, by emailing everyone you know to tell them about this super event, and ask them to do the same. Whether you participate in another event that weekend, you run or walk at your home, your gym or a course of your choosing, wear your Survivor Stride II T-shirt with pride. The fee includes a commemorative Survivor Stride II T-shirt, which will be mailed to you if you register before September 15. A portion of the fee will go towards many great causes such as heart disease research, cancer research, diabetes research, drug/alcohol addiction research, or whatever cause you designate. Just type in your cause in the specified area when you register at www.active.com. Any questions ... email us at info@survivorstride.com.
